

Gabriel Szász

Curriculum Vitae

Education

- 2000–2005 **Master's Degree in Physics**, *Faculty of Mathematics, Physics and Informatics, Comenius University*, Bratislava, Slovakia.
- 2007 **Summer School**, *6th NEON Observing School*, Asiago, Italy.
- 2008 **Summer School**, *IMPRS Summer School*, Heidelberg, Germany.
Art & Craft of Astronomical Instrumentation — from Optical to Infrared Wavelengths

Master's thesis

- title *Photometric Study of Large Outbursts of the Supersoft X-Ray Source V Sagittae*
supervisor RNDr. Ladislav Hric, CSc.
- description We carried out photometric measurements of the well-known supersoft X-ray source V Sagittae during its large outbursts. We obtained the first long-term time-resolved photometric dataset (approx. 800 hours of actual observing time) showing never-before-seen details of this unexplained feature.

Experience

Research

- 2008–2011 **Research Assistant**, *Department of Theoretical Physics and Astrophysics, Faculty of Science, Masaryk University*, Brno, Czech Republic.
Research and academic activities involving model atmospheres, data mining, data reduction & analysis, scientific paper reviewing, conference organizing, and teaching assistance.
- Developed and maintained *mCPod database* (mcpod.physics.muni.cz)
 - Developed and maintained *VarSCAN database* (varscan.physics.muni.cz)
 - Designed, developed and maintained following Web sites:
 - official Web sites of the *Department of Theoretical Physics and Astrophysics* divisions: (astro.physics.muni.cz / theor.physics.muni.cz / edu.physics.muni.cz)
 - *Ernst Mach's Days in Brno 2008* conference Web site (bdem2008.physics.muni.cz)
 - *BinKey* conference Web site (binkey.physics.muni.cz).
 - T.A. Classes for the *Introduction to Physics of Stars and Stellar Systems* course.

Professional

- 2011–present **Quality Assurance Engineer**, *Red Hat Czech, s.r.o.*, Brno, Czech Republic.
Customer-oriented software testing and continuous integration.
Development of the test automation framework.

2015 **Contractor**, *Department of Theoretical Physics and Astrophysics, Faculty of Science, Masaryk University*, Brno, Czech Republic.

Setup, optimization & maintainance of the department internal Web hosting server. Migration of all applications to the new hardware (`phoenix.physics.muni.cz`).

2006 **Conference Technician**, *Congress Business Travel, Ltd.*, Prague, Czech Republic.
Support Staff during the 26th General Assembly of the International Astronomical Union.

Languages

Slovak **Native/bilingual proficiency**

Czech **Native/bilingual proficiency**

English **Full professional proficiency**

Spanish **Limited working proficiency**

German **Elementary proficiency**

Portuguese **Elementary proficiency**

Computer skills

photometry	IRAF/PyRAF, MIDAS, SExtractor, Munipack/C-Munipack	development	C, C++, Java, Python, Ruby, Shell Scripting, FORTRAN
data analysis	SciPy/NumPy, Matlab/Octave, IDL, matplotlib, gnuplot, MPICH	testing	pytest, TestNG, Selenium, Jenkins CI, Puppet, Ansible, Beaker
sys. admin	UNIX, Linux, Fedora, CentOS, RHEL, RHEV-M, OpenStack	web design	PHP, HTML, CSS, MySQL, PostgreSQL, WordPress

Interests

Astrophysics

observing	instrumentation and analysis, direct imaging, adaptive optics, interferometry, spectroscopy, spectrophotometry, astropolarimetry
data	data mining, advanced observing & data reduction techniques
star clusters	Galactic open clusters, stellar parameters and evolution
accretion	Herbig Ae/Be stars, CVs, AGNs, accretion disc geometry
exoplanets	protoplanetary discs, planet formation, astrobiology

Computer Science

computing	parallel processing, MPI
programming	Linux, C, Python
virtualization	libvirt, KVM/QEMU, OpenStack

Miscellaneous

speaking	Toastmasters International, TED
biology	evolutionary biology, molecular biology, biophysical chemistry, molecular medicine
health	molecular nutrition, functional fitness
sports	kettlebell lifting, swimming, skiing, hiking

Certifications

- Red Hat Certified Engineer (Red Hat License 120-011-796)
- Red Hat Certified System Administrator (Red Hat License 120-011-796)

Publications

- [1] M. Chrastina, G. Szász, K. Petrík, and L. Hric. Photometry of variable stars at Hlohovec I.: Aparature. *Perseus*, 1, 2005.
